

Day 2

Lesson 1:

Draw It! Worksheet. Please follow the check marked instructions for your child.

Help your child follow the step by step directions to draw the robot on the included page.

Then give the following writing prompt to your child: "A robot came to live with..." Write or help your child write their response on the lines on the provide page. Remind your child to write their name on their paper. Please write the date for your child and discuss the month, day and year with them.

- ✓ Use the included paper to draw the robot following the instructions. Then have your child color your robot. Then give the following writing prompt to your child: "Hello, I am a robot. My name is _____. I can..." Write your child's response on the lines on the provide page. Remind your child to write their name on their paper. Please write the date for your child and discuss the month, day and year with them.

Lesson 2:

At the Zoo worksheet. Follow the directions on the worksheet. Doing the "Extra!" is optional.

Lesson 3:

Talk about the importance of exercising. Choose any exercise to do with your child. Write what you did on the back of the At the Zoo worksheet.

Lesson 4:

Pattern Activity. Have your child write their name beside the title of the worksheet. Have your child cut out the 4 piece at the bottom of the page. Have your child finish the patterns by gluing the cut out pieces in the appropriate square.

Lesson 5:

Complete the attached activity.
